### **Player Rankings Records**

The Brighton Rankings were devised by Chris Tupper and implemented for the 1992/93 season.

The top 16 each year would play off for the prestigious Brighton Masters title.

Modifications to the system have been made over the years, a big overhaul coming in 2006/07,

with many of the Sussex Competitions being eliminated from the system, and the emphasis being more placed on Brighton Bar Billiards.

However, it takes a great season to finish top of the pile and only 8 men have become Brighton number 1 in 25 years of rankings.

Nigel Senior has achieved this feat 10 times.

## **MENS SINGLES**

Nigel Tops the List with 13 Singles Titles. Is it unlucky 13?.... Somehow I think not.

The first person to win 3 consecutive titles was Harry Leeson 1978-1980. This has only been achieved by one other player Kevin Tunstall 2007-2009

This equates to 18,512 per player giving away 3 breaks to the then Brighton Premier division champions.

This record may take some beating.

However both Jim Millward and Steve Mariner touched up when they had enough due to the importance of the clash, so the final score could have been higher.

Mark's 22,140 was his highest ever break at that time.
